### Dates to Remember

May 2<sup>nd</sup>

Labor Day

No School

May 24 - 27

Parents Week

## Infant School

April was a very exciting month! We went to the Acuario Nacional on our first field trip, and we had a lot of fun during our bus ride and the tour as well.

Dinosaurs came back to life again in our classroom. Our focus was “the smallest dinosaurs that ever lived”; we discovered that there was one the size of a chicken and another like a cat. We were totally amazed with all the information we gathered.

During Math Time , we have been adding amounts. Addition has become an easy task for us. We have become more aware of our reading and writing skills, being able to perform successfully.

We learned about Easter and its true meaning. We all had an amazing time during Easter vacations, and came back with entertaining stories to share.

During the month of May, we will practice all the skills we have learned throughout the year in order to enhance our abilities.

Graphing, working with probabilities and subtraction will be the main subjects in math. In Language Arts we will continue learning about the different types of stories and texts: nonfiction, fiction, and informational text. We will also learn about the roles that the author and illustrator play.

We will also be working hard on a great surprise to commemorate Mother’s and Father’s Day. Our class will try to make you feel as special as you deserve.

Then end of school year is really near, and with it the end of our preschool years. We have already started rehearsals and preparations for a very special and secret project that you will surely love; Graduation. All the details will soon be announced. Our expectations for the month are really high.

Summer...**

### Focus Book of The Month

*The Little Engine  
That Could*  
By  
Watty Piper

*The Little Engine That Could* is one of the greatest tales of motivation and the power of positive thinking ever told. In this well-loved classic, a little train carrying oodles of toys to all of the good boys and girls is confronted with a towering, seemingly impassable mountain.

### Constant Concepts

- Graphing and probabilities
- Subtraction
- Letter names and sounds
- Phoneme blending and segmentation
- High Frequency Words
- Short stories
