Focus Book of The Month

The Little Engine That Could
By Watty Piper

The Little Engine That Could is one of the greatest tales of motivation and the power of positive thinking ever told. In this well-loved classic, a little train carrying oodles of toys to all of the good boys and girls is confronted with a towering, seemingly impassable mountain.

Infant School

April

This month was amazing! Kids loved our trip to the Aquarium; watching all the animals we have discussed in class, and they had so much fun in the bus on our way there and back.

Our Dinosaur theme was very exciting to them, we discussed and saw different types of dinosaurs; their sizes, what they ate and even drew their own dinosaurs and they gave them their own name.

Easter was fun with our Easter Parade; exhibiting their hats and baskets. They loved hunting for eggs and were surprised with the chocolates that the Easter Bunny left them.

May

During this month, we will be working with Literary Genres. We will learn about fiction and non-fiction, we will discuss several fairytales and learn about the different roles that the author and the illustrator play.

We will be working with graphing, probability and data, and introduce subtraction.

Mother's Day is just around the corner, but we cannot forget Father's Day, so we have a special surprise for both of you. Hope you will like it!

Last but not least, the school year is coming to an end and we are very happy and excited working and rehearsing for our special project.
