Focus Book of the Month

Every Season

By

Anne Love Woodhull and Shelley Rotner

Beautiful color photographs illustrate this picture-book celebration of the seasons. "I love spring," the text begins, and in simple, poetic phrases, a speaker describes the unique pleasures of the season. In spring "Speckled eggs fill woven nests. / Showers soak. Seeds sprout. Flowers bloom." The accompanying photos show close-ups of eggs and flowers, rows of newly spouted plants, and a smiling child beneath an umbrella. In the following spreads, the speaker moves through summer, fall, and winter and points out each season's special wonders, all illustrated with eye-catching images. The concept is certainly familiar, if not shopworn. What distinguishes this is the quality and selection of the photos and the lovely spare words, which repeat sounds and lines with an easy, circular rhythm that echoes the cycle of seasons and encourages child participation.

SGS Infant School

Goodbye April...

During the month of April, we had the great opportunity to explore the theme "Plants". We were able to come in contact and observe real plants. We learned how to identify their different parts.

We really enjoyed our "Magic Bean Plant"; we observed the different stages of a plant, compared sizes, colors and growing patterns. Most importantly, we learned about taking care of plants and providing care and necessities for them to grow healthy.

We had lots of fun making our Easter hats, decorating them with bright colors and beautiful objects for our "Easter Parade".

Hooray for April!!

Hello May...

We are very excited with our new theme, "Seasons". We will explore the seasons to its fullest; characteristics, weather changes, and regions. We will have the opportunity to participate in fun filled Social Studies projects.

We will keep on motivating activities that enhance our writing, reading, and mathematical skills in order to improve our performance.

Parents' Day is almost here, we will be working hard preparing a wonderful surprise for you.

Read-aloud Tips for Parents

1. Invite your child to read with you every day.
2. When reading a book where the print is large, point word by word as you read.
3. Read a child's favorite book over and over again.
4. Read many stories with rhyming words and lines that repeat. Invite the child to join in on these parts. Point, word by word, as he or she reads along with you.
5. Discuss new words. For example, "This big house is called a palace. Who do you think lives in a palace?"
6. Stop and ask about the pictures and about what is happening in the story.
7. Read from a variety of children's books, including fairy tales, song books, poems and information books.
