Subject: Social Studies
Grades: 5th and 6th Grade
Date: August 17, 2011

Dear Parents and Students,

Let me begin by saying I am delighted to be your Social Studies teacher this year. I am a recent graduate from The Ohio State University in the United States and decided to begin my career in the Dominican Republic. Having a passion for teaching, I am excited to begin the school year.

Having studied International Relations & Diplomacy, I am excited to implement my knowledge and experiences in the classroom, while creating a fun and comfortable learning environment.

Early education plays a vital role in the growth and success of a child. As a young professional, I am honored to be involved in this learning experience. It is my job to guide students in the classroom and assist them to find their self-motivation to become young educated individuals.

I anticipate having lively students that are always asking questions to enhance learning for all. We all are part of a team. Parents, students and I must work together and fulfill our responsibilities to help students learn at the best of their abilities.

This is an excellent time for Social Studies. With the vast history of countries and appealing world events, I am excited to be a leader in this learning experience for all.

Sincerely,

Mr. Sachon
