Date: 17 de agosto 2011

Dear parents and students:

Welcome back to this school year. As a science teacher of 7th and 8th graders I'm really excited about all the new learning opportunities, and I have great expectations with this new adventure that opens up the possibilities for great success.

In science we will be unveiling many of the mysteries of life, and how the marvelous world that supports and surrounds us, works.

My name is Miguelina Coronado Cornelio, I have been teaching science and math for a number of years and now, as part of Saint George School staff, I am focused on teaching science. I am an Industrial Engineer with a Master's Degree in Business Administration and another one. As the perpetual learner that I am and as an educator I would like to inspire my students to be constantly curious and caring about their surrounding world.

By working together, we will make this year the best and the more productive of all.

Best regards,

Miguelina Coronado
