Dear students and parents,

It is my pleasure to introduce myself as your twelfth grade IB business and management teacher (IBBM).

I possess an Economics and Political Science Bachelor's Degree from Yale University in addition to a postgraduate summer course certificate of Business for Senior Managers from the Harvard Business School. I am currently coursing my master's degree in Educational Management at Universidad Iberoamericana (UNIBE) due for completion December 2011.

My past professional experience spans over ten years working with multinational corporations in the international steel and cement trading business with postings in Mexico, United States, and Brazil. I returned to the Dominican Republic in 1998 to become an entrepreneur and over the course of the following years started a company, manufacturing windows and doors in the glass and aluminum industry, and a second company in the educational materials distribution sector. These two companies today employ over a hundred people and are involved in the import, distribution, warehousing, sales and marketing, and retail ends of the business spectrum. Concurrently, I have been working since 1998 at Saint George School focusing on administration, finance, and strategic planning.

I am taking on this exciting challenge of teaching as a natural progression of my ongoing educational formation and I am looking forward to sharing my limited knowledge about business to our group of IBBM students. It is my sincere hope that I can provide a guiding hand to you during this course in order to demystify business to those that may choose other careers, and provide the necessary fundamental tools to those students who wish to continue their academic and professional formation in the business world.
