Grades: 5th-6th (Keats)
Date: August 17, 2011

Dear Parents and Students:

I am your child's math teacher, and I am delighted to have your child in my class this year. Although I am new at Saint George School, I have been teaching for twenty three years in Elementary and Middle School. I consider myself very fortunate to be among such a professional faculty, wonderful students, and involved and interested parents.

Math is a subject in which to discover the adventures of many mathematicians and generations of diverse nations that have given us a universal language. Inquiry and discovery are needed to explore the vast world in which numbers are the main ingredient to a wonderful school year.

This adventure cannot be one to commence alone, we need to work together in order to achieve our goals this year. Make sure to take part as well as to motivate your child as we begin this journey. Motivation and perseverance are keys to stay on course and reach our final destination.

Sincerely,

Rosita Dilone

"How far you go in life depends on your being tender with the young, compassionate with the aged, sympathetic with the striving and tolerant of the weak and strong. Because someday in your life you will have been all of these". ~George Washington Carver
