Subject: Science
Grade 5th and 6th Grade
Date: 17 de agosto 2011

Dear parents and students:

It is a pleasure to introduce myself as your Science Teacher for Middle School at for this school year.

I have great expectations and wishes to work together through this academic year, hoping to impact the minds of my pupils in the most positive way, teaching them how to develop a scientific approach in this fascinating subject with applicability to real life.

We have a great task to be accomplished together, since we have so much to discover in order to polish the intellectual diamond inside each of our students, because they are tomorrow's hope for productive critical thinkers and future leaders conducting the nation's reins.

Looking forward to a fantastic year!

Sincerely,

Dr. Luis Rojas

"Difficult things we do it immediately. Impossible things require more time". General Douglas Arthur
