Welcome Back!

Dear students and parents,

After a long summer, it's time to go back to thinking about thinking. I hope you are well rested, tanned and relaxed. But it's time to get back to work!

I am Donald Gotz, the 10th grade high school US History teacher, as well as the Project Green advisor. I have been at Saint George for 6 years and have been in and out of the Dominican Republic for 23 years and have strong roots in the community.

I expect my 10th grade students to begin thinking for themselves, be responsible for their own education, and to develop a world view that incorporates diverse thoughts, ideas and opinions. The key concept they must accept is "accountability". The students need to learn to be responsible for their own work, their own reading, and be prepared to do whatever is necessary to be successful. Take nothing for granted.

I look forward to being a guide that leads from the past through the present and zooms our way into the future! There is no limit to what a student can do if the parents are on board and give the support that every student needs. Read the newspaper, ask questions, and be inquisitive. Need to know things and don't relax until you've learned it!

Students should always remember the motto that is posted in the classroom:

Adapt, adjust, be flexible and stay cool!
