Dear students, parents and guardians,

I want to start by thanking you already for the wonderful year that we will be having in our History class. I promise all of you who will be with me this year, a very exciting learning experience and an environment of caring and mutual respect.

For those of you who are not aware of my credentials, I am a graduate of Wellesley College with a B.A. in History and Sociology and a minor in Spanish. I am certified to teach 6th through 12th grade. My work experience entails 10 years in Corporate Human Resources and 8 years as a History teacher. Before arriving to the Dominican Republic 3 years ago, I taught at the High School level at Florida Christian School in Miami, Florida.

I am this year's 11th grade IB History teacher as well as the school's Model UN Faculty Advisor. I have very high expectations of each of my students and expect **excellence**. Excellence does not mean perfect but that I expect you to always do your very best. My teaching philosophy is simple: each student must take responsibility for his or her actions at all times.

I am excited and honored to be with you this school year, and am looking forward in being your teacher and guide because I know that you are a very special class.

God Bless,

Mrs. Landestoy
